

The Lightweight Insulating Roof Tile

The Pilgrim Perlite is a light weight, concrete interlocking roof tile that incorporates lightweight volcanic aggregates for a significantly enhanced thermal performance.

The Pilgrim Perlite has a thermal resistance which is 25% greater than a typical concrete roof tile, helping to reduce the heating and cooling load and providing increased thermal comfort across all seasons.

Technical Specifications

Size	420mm x 330mm	
Weight	39.5kg/m ² @ 100mm headlap	
Tiles/m ²	9.7	
Pitch	17.5° (100mm headlap)	22° (75mm headlap)
Hanging length	397mm	
Battens	2.92m/m ² @ 100mm headlap	
Batten Size	40mm x 25mm for supports not exceeding 450mm centres (BS 5534)	50mm x 25mm for supports not exceeding 450mm centres (BS 5534)
Standard	BS EN-490	
Pallet quantity	240
